About Mizuno

Mizuno USA's roots stem from its parent company, Mizuno Corporation. Mizuno Corporation was established in Osaka, Japan in 1906 by Rihachi Mizuno. Today, Mizuno USA is located in Peachtree Corners, GA and continues to manufacture and distribute high quality golf, baseball, softball, running, track & field, and volleyball equipment, apparel, and footwear.

Since our founding, we have taken special pride and pleasure in being able to participate in the exciting world of sports and providing sports equipment of the highest quality. Each and every one of us is guided by the ideal of true sportsmanship. That was true over 100 years ago and is still true today. It is evident in our corporate philosophy which, simply stated, is "Contributing to society through the advancement of sporting goods and the promotion of sports."

Are you a competitor driven by overcoming extraordinary challenges? Are you motivated by being a critical team member? Do you aspire to join a brand that makes a difference in the communities we serve? Mizuno USA is seeking top performers like you carry on the legacy of one of the world's most iconic sporting goods brands.

Every Mizuno USA teammate is a champion of our Mission and commitment to one another and athletes everywhere as they strive for ultimate achievement at every level of competition.

Let us know if you're game-ready!

Summary

The Junior Web Developer will assist with the design, programming, and troubleshooting of the organization's existing website and related applications using scripting languages.

Essential Duties and Responsibilities

The Junior Web Developer will perform specific tasks like the following:

- Collaborates across departments to identify and understand new website and application development needs.
- Supports the planning, execution, and facilitation of website and application development projects in accordance with specifications, budget, and timeline.
- Develops and supports implementation of websites and applications; coordinates site and application functionality with organizations content management system.
- Identifies, troubleshoots, and resolves site and application issues; recommends and implements preventive measures to avoid future problems.

- Collaborates with security and compliance employees to ensure site security.
- Provides on-call support to support service level agreements.
- Maintains knowledge of emerging technology and best practices in website and application design and development.
- Performs other related duties as assigned.

Qualifications

- Bachelor's degree required, preferably in Computer Science, Management Information Systems, or related field.
- Technical certifications, certificate programs, and/or higher-level training are highly desired.
- At least two years of experience with AWS integration.
- At least two years of experience building and maintaining APIs and integrating websites and web applications with legacy backend systems, with strong working knowledge of FTP and middleware protocols.
- Excellent verbal and written communication skills with ability to communicate technical concepts in an understandable and concise way.
- Excellent organizational skills and attention to detail.
- Strong analytical and problem-solving skills.
- Excellent time management skills with the proven ability to work on multiple projects and stay within scope, schedule, cost, and quality specifications.
- Good understanding of .NET programming framework.
- Fluency with markup and programming languages including HTML, JavaScript, Python, XML, Java, and CSS as well as third-party libraries such as React Js, Angular, jQuery and LESS.
- Familiarity with DBMS technology, including SQLServer, Oracle, MongoDB and MySQL and caching mechanisms such as Redis, Memcached, Varnish, and Magic.
- Knowledge of UI/UX and basic prototype design.
- Proficient with Microsoft Office Suite, Adobe Creative Suite, and other related software.

Physical Demands/Essential Functions

- Prolonged periods sitting at a desk and working on a computer in an open office environment.
- Must be able to lift up to 15 pounds at times.

Whenever possible, Mizuno USA, Inc. strives to promote from within if the skills and necessary qualifications meet the requirements for the position. Internal and external candidates will be considered for the position and the best candidate will be hired.

Mizuno USA, Inc. is an Equal Opportunity Employer: All qualified applicants will receive consideration for employment and will not be discriminated against based on their race, gender, disability, veteran status or other protected classification.
